Captain Dovener received a great ovation at the hands of the Republicans and sound money voters of Ohio county last night, and the genuine enthusiasm which greeted him is an indication of the immense majority which surely awaits him at the polls next Tuesday. No candidate was over given a more hearty reception.

The meeting was called to order by Mr. J. K. Hall, chairman of the Ohio Mr. J. K. Hall, chairman of the Ohlo county Republican committee, who named Dr. D. H. Taylor as chairman. Dr. Taylor briefly addressed the mect-ing on the condition of the country both before the administration of Gro-ver Cleveland and since that gentleman and a Democratic Congress had been placed in power, and began monkeying with the tariff. He concluded by intro-ducing the speaker of the evening, Hon. B. B. Dovener, congressman from the First district of West Virginia. Capiain Dovener Speaks.

The applicause and cheers which greet-

ed the captain amounted to an ovation begin his remarks. He began by apologizing for the condition of his voice. which was hoarse. It grew better as he proceeded, however, and he made one of the best speeches heard in Wheeling this campaign. He told of his trip through his own district and those of Messrs. Dayton and Dorr, and said that all the indications point to a grand Republican victory next Tuesday. The committees are all well organized, and the people are aroused and ready. In referring to the appearance of Colonel Poorman, of Bellaire, in this city, last Thursday evening, he said the party on this side of the river must be in a pretty bad condition when they bring such a package of "all-sorts" from a neighboring state.

The speaker took up the "crime of which was hoarse. It grew better as he

a package of "all-sorts" from a neighboring state.

The speaker took up the "crime of 1572," and spoke in a most entertaining manner concerning it. He read from the bill passed by Congress in that year and conclusively proved that no "crime" had been committed. He spoke of the amount of silver dollars coined before the passage of the alleged demonetization act, and showed the immense increase of coining estimate time. He also called attention to the amount of silver being coined even at the present time and every day since the act of 1573. He defined the meaning of the word demonetization, and demonstrated clearly that such a thing as demonetization was not

five trade dollars; they are worth about fifty-three cents, he takes them to the store and can only buy fifty-three cents' worth of goods for each one of them. He is the loser, and I as his employer, am the gainer. Thus you can readily see how the man who has only his labor to sell, is the loser. It is not the capitalist or the merchant, who loses it all by free silver, but the laboring man, the man who works for a living. (Applause.) The trade dollar was legal tender for only 15, but the Popocratic party wants to give you a silver dollar worth but fifty cents, to-day worth forty-seven cents, whose tender is unlimited and must, he received by the laborer in full for the services he renders. Do you think it is square, do renders. Do you think it is square, do you think it is honest? (Cries of "No, no.")

no.")
"The present dollar, the standard dollar of the United States, is worth one hundred cents, Why? Because it is backed, by the government, and that government has placed back, of it a gold standard which backed, or government has placed back of it a gold standard which insures every holder of that coin that it, shall have the purchasing power of one hundred cents in gold. The Popocratic leaders and the Popocratic press have endeavored to convey to the minds of voters, that should Major McKinley be elected, we would have nothing but gold money, and they have even gone so far as to argue with the farmers that there has the farmer than the farmers that the farmers that there has the farmer than the farmers that there has the farmers that there has the farmers that the farmers that there has the farmers that the farmers that there has the farmers that the farmers t is not enough of gold to go around, and consequently they could not pay their debts and would have to sell their farms. This but shows how desperate they are, and shows their greef for office, which they could not gain in a fair and square campaign.

"The Republican party stands for the existing standard, the money of the present time and insists that every dollar shall have a purchasing power.

lar shall have a purchasing power ver or paper. It is not the intention of the Republican party to take from you the silver and paper money, but it is its intention to keep on bessing more and more of it, as the population increases and as the demand for money becomes greater.

Queer Popocratie Doctrine.

"I met on my tour of this district, a man who is a candidate on the Popocratic ticket for prosecuting attorney

Illinois, makes when he rents a house, and stipulates that his rent shall be

and stipulates that his rent shall be payable in gold only.
"It you owe a grocery bill and go to pay it, and offer the dealer a ten-dollar bill, it payment, he doesn't ask you whether it is a promise to pay in silver or gold, but he takes it and gives you your receipt, looking only to see the denomination of the bill. It goes for its face value, llow would it be it we had free silver and a fifty-cent dollar?

we had free silver and a hity-con av-lar?

"They appeal to the man in debt to stand by them, saying his debts would be payable twice as easily as they are now, but do they tell him is would have to work twice as lard for his mo-ney? Do they explain to him that he would have to eccept the very dollars he pays out at the same rate that he pays them? They talk of, free silver, my friends, but you know as well as I do that you would have to work just as hard, as you do now, and at the end

do that you would have to work just as hard, as you do now, and at the end of the week, be paid in a dollar that has but one half the purchasing power of your dollar to-day."

The captain spoke of the fight before the people and said that the campaign of 1896 would go down into history as the greatest and most desperate ever known in this country. He told of the desperate measures resorted to by the politicians on the other side, and the many misstatements and forgeries used by them. He pointed out the fact that this year, party lines have been obliterated to a greater extent than ever crated to a greater extent than ever before. It is a fight for the country's honor, for the home, the family and the manhood of every citizen.

Bryan's Nomination. He said Mr. Bryan was nominated not because he had ever achieved any great success as a lawyer, or a states-man or a journalist, but because he had succeeded in making a speech in the Chiego convention which was a con-gloineration of words and sentences prettily arranged, with no argument or any particular significance. He then proceeded to take up the Nebraskan's Speech section and read it in

any particular significance. He then proceeded to take up the Nebraskan's speech sextion by section and rend it in a manner-that amused his hearers and drew forth, the enthusiastic plaudits from everybody present. His reference to are lightly respectively with applause. He showed from the record that the Popocratic candidate was the most bitter free trader on the was the most bitter free trader on the was the most bitter free trader on the Wilson ways and means committee, and that he argued and voted for the placing of all of West Virginia's principal products on the free list.

Captain Dovener said that when Major McKinley takes his seat as President of the United States a tariff will furnish revenues sufficient to run the government, and that besides this a law will be passed that will put such a thing as pauper immigration to this country a thing of the past. (Applause and cheers). He spoke in the highest terms of Governor G. W. Atkinson, and predicted his election by an overwhelming majority. At the mention of Mr. Atkinson's name, the crowd went wild and the speaker was unable to proceed for several minutes.

The Republican party, said the captain, has always been the party of the poor man. He was "proud to be a

several minutes.

The Republican party, said the captain, has always been the party of the poor man. He was "proud to be a member of the party, hat never pressed the crown of thoras down on the brow of labor, or tried to crucify mankind on a bogns cross of 50 cent silver dollars." He elequently referred to the fact that the first Republican President was a poor boy, and arose from the humble walks of life. He told of the others, who had followed him, all being poor boys who had been sducated and trained by their own industry. The Republican party has ever been in favor of free press, free ballot and free men in America and free schools, (Applause).

Captain Dovener closed by extending and invitation to all Republicans and sound money citizens of the state to go to Washington on March, 4th, to see President McKinley inaugurated, and as soon as he had said it the crowd began cheering and for some time the hall resounded with deafening cheers. The speaker then offered three cheers for McKinley and the entire adulence, ladies and men, arose and responded to the suggestion. In the most enthusiastic manner. Three hearty cheers were also given for Captain Dovener.

At the conclusion of Capiain Dovener's speech, the chairman introduced Mr. W. H. Hearne, who was greeted with applause. Mr Hearne said he was not prepared to make a speech and had no expected to make one, but he could no and demonstrated clearly that such a thing as demonetization was not thought of in the art of '72.

He answered the claim of the Poporatic oratic orators that if the government places its stamp on anything, it will be good for its face value, by producing a trade dollar and said the stamp of the United States was on it and it contains seven grains more of silver than the dollar of to-day and asked why it is that the trade dollar is worth only fifty-three cents to-day. It is because it was coined free for trade purposes.

A Dishonest Scheme.

"Suppose we, have these kinds of dollars, and I have a man working for me, and I owe him \$5 for labor. Pay day comes around and I give to him five trade dollars; they are worth about fifty-three cents, he takes them to the store and can only have directly and concluded his remarks there were load to the claim that two do this it was necessary to vote right. He pointed out the calamity that the do this it was necessary to vote right. He pointed out the calamity that the do this lit was necessary to vote fight. He pointed out the calamity that the do this lit was necessary to vote fight. He pointed out the calamity that the do this lit was necessary to vote fight. He pointed out the calamity that the calamity that the do this lit was necessary to vote fight. He pointed out the calamity that the do this lit was necessary to vote fight. He pointed out the calamity that the two do this lit was necessary to vote fight. He pointed out the calamity that the two reasons the country, if the population was necessary to vote fight. He pointed out the calamity that the twest w have enough, and when Mr. Hearne had concluded his remarks there were loud ories for Col. George B. Caldwell, who was sitting on the stage. He responded in a happy vein. He made a twenty minute speech, which was calculated to shake the bones of even a defunct Popeny, and sent the people home in a ground humor. He predicted that the cracy, and sent the people jolly good humor. He predicted that the victory on next Tuesday would be a regular "gully washer," and the crowd-showed that it thought so, too. It was a fine meet and one thoroughly enjoyed by all present.

BELMONT WILL GIVE 850

Majority For McKinley-The Situation Over the River.

The Republicans carried Belmont county in 1892 by about 200 plurality. This figure was increased enormously in the tidal wave years of '94 and '95, but

the total wave years of '91 and '95, but the Popocrats have declared that with proper effort on their part the county would be doubtful in November.

While the Republicans were disposed to ridicule these claims they have not relaxed their vigilance or diminished their activity. Their careful poll of the whole county, three precincts and five school districts omitted, shows that Bel-mont will do herself proud on November 3. Giving the Popocrats all percentages by their favor a conservative estimate 3. Giving the Popocrats all percentages by their favor a conservative estimate buts the minimum plurality for McKinley over Bryan at \$59. The chances are that it will greatly exceed this figure. On the county tleket there will not be many changes. W. F. Smith, the Republican candidate for probate judge, is one of the most popular men in the county. He will take away some votes from D. H. Milligan, his opponent. Smith is a Barnesville man and Milligan, who formerly edited the Gazette, lives at St. Chairsville. Yesterday in St. Chairsville, a small bet was made that Smith would beat Milligan by 1,009 in the county. The money was put up. Smith would heat Milligan by 1,000 in the county. The money was put up.

The Republican county ticket throughout has great strength and its election is not questioned even by the Popicrats who have been making a good deat of noise up to the past ten days. Capitala Danford, for Congress, will make a strong showing in Belmont.

VICE PRESIDENT STEVENSON .

Will be the "Main Guy" in To-day's Pop-ocratic side Show-The Clubs Expected to Make Their Hest Demonstration this Evening.

This is supposed to be Democratic Day in Wheeling, and the demonstration is the conclusion of the Popocratic campaign in this part of the state. There will be a great street demonstration this evening, which the Popocrats hope will cellpse the Republican turn-out of last Saturday, in size at least. They cannot hope to make the fine showing of the Republicans, and as to numbers-well it will end in hopes.

There will be speaking at three places this afternoon, as follows: Corner of Twelfith and Chapline, corner of Fourteenth and Chapline. The speeches will begin at 2 p. m.

The principal crater of the day will be Vice President Adlal E. Stevenson, who arrived here this morning at 140 o clock the conclusion of the Popocratic cam-
